RVT Process Equipment moves Chinese production site to Kunshan German Industrial Park P11/18

- **RVT moves its Asian HQs to Kunshan German Industrial Park**
- **New facility will have larger production and storage capacity**
- **Management expects an increasing demand of mass transfer products from the Chinese and Asian market**

Developing new markets and expanding capacities: RVT Process Equipment is shifting its Chinese production to Kunshan German Industrial Park. Through this branch, the company will serve the Chinese market in the future. In addition, the site serves as an interim storage facility and production facility in Asia.

In cooperation, the Kunshan Municipal Government and the AHK Shanghai, inaugurated Kunshan German Industrial Park duly on October 29, 2005. The industrial park covers two districts with a total area of 438,290 sqm.

Since 2006, RVT has had a representative office in Kunshan, which serves as a platform for expanding the trading network and deepening alliances with trading partners. "Convinced of the potential of the Chinese markets, we now take the next logical step by expanding our existing trading and production capabilities in Asia," says Herbert Rüger, Managing

Director of RVT Process Equipment GmbH. "In China, we want to deepen our market penetration and expand our customer base."

In the last five years, RVT has steadily increased its sales in the Chinese market and expects sales to continue its upward trend in the coming years.

About RVT

RVT Process Equipment GmbH is a medium sized family owned company located in Upper Franconia, Germany. Since 1976 our scope of supply has covered components for mass and heat transfer processes for chemical, petrochemical, refinery and environmental applications.

The overall array of products includes random packing, structured packing, column internals, mass transfer trays, complete columns and turnkey units for environment protection applications.

More than 140 employees work for the company in Steinwiesen and Marktrodach. Our two subsidiaries in Knoxville TN, USA, Kunshan PR China and representatives in all important market places are selling our products all over the world and are being used by many global players.
